

# System Requirements

## Problem

The System Requirements control is not verified at the "System Check 3/7" screen.

### System Check 3/7

We are checking your system and environment. For some of the recording items we need your action, the system will guide you! For the starting session, all items must be verified. If there is any unverified item please press "Retry" for verifying again.  
Please check the [FAQ](#) page if you have a problem. Let us know by [reporting the problem](#) if you can't solve it.
